## REPORT OF FIRE WARDEN

---

In submitting my annual report as Fire Chief and Fire Warden, it is a pleasure to be able to say that the year of 1942 was a very successful year on both brush and house fires.

On February 21, 1942 the Fred Bishop house caught on fire from the chimney. I was confined to the house with a broken ankle but the boys were on the job and responded in a short time.

On August 26, 1942, a hen house and garage caught fire at the Butler farm North Side. The boys were on the job again and saved most of the garage and possibly the rest of the buildings. Both of these houses were saved with the aid of the tank truck which we added to our equipment. The cost of the tank truck was around \$250.00. Saving these two buildings more than paid for the cost of the tank truck.

The firemen have manned the report center nights for some time and I hope we can continue for the duration of the war. I feel that we are not free from danger yet and should be ready for any emergency.

We were called out for brush fires out of town several times last year and are likely to be called again this year, due to the fact that most of the towns are short of men.

I hope everyone who has burning to be done will get it done early because as soon as the snow is gone and the ground gets dry permits will be issued only on rainy days.

I want to thank all the boys in the Fire Department, the Selectmen of the Town of Fremont and all others who helped make last year a good year. I hope we can make 1943 as successful as 1942 was in regard to fires.

Respectfully submitted,

ROBERT W. SMITH

## REPORT OF SUPERINTENDENT

---

*To The School Board and Citizens of Fremont :*

It is with pleasure that I submit my first annual report as Superintendent of your Schools.

Although I have been working with your schools for only two months an endeavor will be made to present the usual interesting statistics for 1941-1942 as well as some of the activities of the present school year.

You are fortunate in having four experienced teachers; being residents of Fremont they need no introduction. During my visits to the schools I find them well managed and neat, the pupils are well behaved, the lessons well prepared by the teachers and a general atmosphere of happiness and industry prevails, on the part of everyone.

All pupils in the first and second grades have been equipped with the most modern of reading materials replacing out-moded and worn books. Several minor repairs were effected during the past summer. The schools are in good condition generally and are functioning efficiently.

The following regulation pertaining to the age for entering first grade was recommended by your School Board, and approved on July 30, 1942 by the State Board of Education. "No pupil shall be eligible to enter the public schools in the town of Fremont in the fall term, or will have attained such age on or before December 31, following the date of admission." This is a standard generally recommended in New Hampshire, and followed by most school districts.

School subject content is being effected in many ways by war conditions. Teachers are keeping the pupils well in-

formed of current activities through current events, encouraging them to purchase war stamps and bonds and making regular work as practical as possible by bringing into discussions up-to-date problems dealing with present conditions. The teachers have taken their additional part in the war effort by working on rationing programs. Teachers and pupils are to be commended for the extent to which the pupils have purchased stamps. The total amount invested in this manner is \$1,286.35, an average of about 13.85 per pupil. During the Scrap Salvage Drive a considerable number of pounds were collected. Other similar work included collection of rubber, tin, electric light bulbs, paper, rags and aluminum.

The cost of text books and supplies is increasing. Shortages in materials are getting more noticeable. We must attempt to conserve on their use by steady effort to prevent any waste or abuse of materials.

An article in the January issue of the *School Executive* magazine states concisely and emphatically regarding Education after the war in Great Britain that, "of all the State's activities, education is the basic activity, because it conditions the future character of the entire community — in peacetime no temporary economic crisis should be permitted to have any effect at all upon educational services. In wartime the maintenance of these services at a level of high efficiency should have maximum priority."

This thought should continue to prevail in our own country.

The Fremont Schools may be likened to the American School as a whole, as described in the following quotation from a recent United States Office of Education publication: "I do not consider it an overstatement to say that the United States owes much of its economical, social and political power as a nation to the organization and efficiency of its education. Though the American School was born out of the basic

needs of the country, it is now the result of continuous striving for improvement." However, Fremont should—in order that it may hold its place with the American School as a whole—continue to strive for an educational system whereby the pupils will be in larger "grade-groups", I believe a previous report has given the various advantages of consolidated schools. (1941)

The greatest task before the American people is to win the war. To this end our utmost energy and our best thoughts are dedicated, but we must not be unmindful of the peace and world reconstruction which must follow. We are confronted now with decisions that will determine the kind of citizens who will inherit this country of ours. We must keep constantly before us the fact that children can not delay the growing-up process. "What they will be, they are now becoming."

The following had perfect attendance records, 1941-42.

William Burleigh	George McIntosh
Kenneth Hall	Samuel Pratt, Jr.

Your attention is directed to attached reports of the school nurse, Mrs. Constance Cooper and the music teacher, Miss Jean Beaton, both of whom seem to be doing a good job at their respective duty of helping to maintain and improve the physical welfare of the children, and teaching some music appreciation and developing and bringing out whatever talents the children may have along those lines.

In conclusion, I wish to thank the members of the School Board, the teachers, and other citizens for their cooperation during my first two months of service, and I hope to carry on effectively the work of the schools in the future.

Respectfully submitted,

JONATHAN A. OSGOOD,  
*Superintendent of Schools.*

## REPORT OF MUSIC TEACHER

*To the Superintendent and School Board of Fremont:*

I hereby submit a report of activity in music for the year 1941-1942 as well as for the present school year:

There seem to be about the average number of uncertain singers or non-singers admitted to the first grade this year. These we try to give as much individual help as the time at our disposal will allow. The most of them eventually find their singing voice either by this method or thru imitation of the others.

From the third or fourth grade I try to keep a balance between note-reading and rate singing. Note-reading, so that over a period of years we may sing independently more and more worthwhile songs and rate singing so as to maintain spontaneous singing and immediate pleasure.

Music appreciation or lessons in listening have been carried on with the aid of the phonograph and records. While it is impossible to carry on all phases of music education with four or eight grades in a room, listening seems to have become increasingly important in this age of radio.

Where it was desirable we had some work in rhythm (folk dancing). This also I believe to be very worth while and here again the time element is against us.

There is a very successful rhythm band at the Pine School, much enjoyed by the pupils and an excellent experience for them.

I wish to express my appreciation to Mrs. Gauthier, Mrs. Towle, Mrs. Amazeen and Miss Ball, for their splendid co-operation.

Respectfully submitted,

JEAN A. BEATON.
